

	<b>Equipment Warranty</b>	
	<b>42-03-15</b>	<b>Revision: A</b>

Sonic Systems guarantees this system to perform in accordance with the detailed specifications and be free from defects in workmanship and materials. The warranty period extends one calendar year from the date of shipment from Sonic Systems, unless special warranty terms have been agreed upon and documented.

During the warranty period, Sonic Systems at its discretion, determines the replacement or repair of components deemed to be faulty due to materials or workmanship. Certain components may require an in-house investigation or review to determine the fault and validity of a warranty claim. If a part is replaced under warranty, and an investigation determines it was faulty due to anything other than a defect in workmanship or material, the customer may be billed for that part after completion of the investigation. All parts subject to replacement are under Sonic Systems discretion to determine if an inspection/investigation is required prior to warranty replacement.

All parts deemed to be faulty due to materials or workmanship are covered under this warranty. Labor costs for replacing the parts at a customer facility are incurred by the customer or distributor. If warranty repair requires on site repairs from a Sonic Systems technician at a customer facility, the cost breakdown is determined on a case-by-case basis. If warranty repair requires repairs at Sonic Systems, all parts and labor costs are covered by Sonic Systems.

This warranty described in this document does not apply to any Sonic Systems product which has been used, repaired or altered in any way other than original design. In addition, the warranty does not apply to any Sonic Systems product which has been subject to misuse, negligence or operated in any way other than in accordance with our operating instructions. The warranty does not cover parts or labor for any repairs resulting from the use of inferior replacement parts or replacement parts not supplied by Sonic Systems to the customer or distributor. The warranty does not cover any accessories not provided by or authorized by Sonic Systems.

The warranty does not cover any damages due to transit unless the damage done in transit is due to faulty Sonic Systems packaging. All transit damages must be reported immediately upon receipt of the unit and brought to the attention of the shipping company, the distributor (if applicable) and Sonic Systems.

Major “buy-in” components (ex. pumps, immersion heaters, special tanks, computer hardware, etc.), are covered by both this warranty and the original manufacturer’s guarantees. The original manufacturers guarantee may extend beyond the Sonic Systems warranty. Sonic Systems will honor the manufacturer’s warranty, if applicable, analyzed on a case-by-case basis.

The warranty document may not apply to all equipment built or sold by Sonic Systems Inc. This warranty document is only valid for the specific unit and specific serial number detailed below.

**Model Number:** \_\_\_\_\_

**Serial Number:** \_\_\_\_\_
