

Use of Model T135-8 and StreamLine 6

SCOPE:

This reference guide shows the suggested way to utilize the model 14374, Three section basket, in the Model T135-8 and StreamLine 6 when processing Bill Validators (Cash Boxes) in the gaming industry. Correct location of the cash boxes within the basket allows for effectively processing them to insure proper operation.

PROCEDURE:

1. Please refer to T-Series manual for proper use of Ultrasonic equipment.
2. Open access door on cash box and insert body of cash box into a basket opening
3. Allow door to remain in the open position by allowing it to rest on basket frame.
5. Repeat procedure for up to three (3) cash boxes
6. Situate the baskets in the T135-8 by resting the protective tipped ears on the upper lip of the tank
7. Process in timed ultrasonic bath filled with adequate detergent and water.
8. Two Model 14374 baskets will fit in the StreamLine 6, enabling the process of up to six (6) cash boxes. (see fig 3)
